Parisa Ghasemi

Full Stack Developer

LinkedIn: Parisa-Ghasemi

GitHub: parisaghm

Full Stack Developer with 5+ years of experience building scalable SaaS products using TypeScript, React, Node.js, PostgreSQL, and cloud technologies. Experienced in developing customer-facing applications, API integrations, AI-assisted workflows, and automation solutions. Passionate about startup environments, AI-native development, and turning ideas into production-ready products through close collaboration with users and stakeholders.

SKILLS

- **Frontend:** React, Next.js, Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Performance Optimization
- **Cloud & DevOps** Git, GitHub Actions, CI/CD, Docker(basic), Google Cloud Platform (GCP)
- **Backend & APIs:** Node.js, PostgreSQL, REST APIs, GraphQL, API Integrations, Authentication & Authorization
- **AI & Development Tools:** Claude Code, Cursor AI, ChatGPT, GitHub Copilot, AI-Assisted Development, Coding Agents, LLM APIs, Prompt Engineering, AI Workflows

TECHNICAL EXPERIENCE

Full Stack Developer(Freelance)

Sep. 2024 — Present | Remote

- Designed and developed full-stack SaaS applications using React, TypeScript, Node.js, and PostgreSQL.
- Worked directly with clients and stakeholders to define requirements and rapidly deliver product features.
- Built AI-assisted workflows and automation systems to improve productivity and software quality.
- Contributed across frontend, backend, database design, API development, and deployment workflows.

Front-End Engineer, Sabaldea Co.

Feb. 2020 — Sep. 2024 | Remote

Sabaldea operates Iran's leading streaming and video platforms, including Aparat (56M+ monthly users) and Filimo (3.5M+ users).

- Developed and maintained high-traffic web applications serving millions of users.
- Built reusable UI systems and scalable frontend architecture using React and TypeScript.
- Improved application performance by 24% through lazy loading, code splitting, and rendering optimization.
- Implemented responsive, accessible, and cross-browser compatible interfaces.
- Wrote and maintained automated tests and improved test coverage by 30%.
- Collaborated closely with product managers, designers, and backend engineers to deliver user-focused features.

UI Designer, Arosis

Feb. 2018 — Mar. 2019

Arosis was a fintech startup focusing on POS and supply chain solutions. I worked as part of the development team, contributing to the design and implementation of the company's web presence and customer-facing applications.

- Designed and implemented responsive interfaces for fintech and operational platforms
- Focused on usability, scalable UI workflows, and user experience consistency

PROJECTS

- **Budget Tracker:** Built an AI-assisted finance dashboard using TypeScript, Node.js, PostgreSQL, and modern frontend technologies. Developed scalable APIs, analytics dashboards, authentication flows, and responsive user experiences with strong focus on maintainability and clean architecture.
- **NexPath Career Assessment Platform :** Developed AI-assisted career assessment and guidance workflows. Built AI-powered automation testing solutions using coding agents and modern AI tools to improve software quality, testing efficiency, and user experience. Collaborated closely with stakeholders and end users to rapidly deliver customer-focused features and workflow improvements.

EDUCATION

Bachelor's degree in Computer Software Engineering, Azad University (IAU), Tehran, Iran

2014 — 2016
Tehran, Iran
